EXPERIENCE / INTERNSHIP

Sept 2020 - Jan 2021

Associate Intern ▶ Ezops Inc.

1. Day to day responsibility is to write code in python (pandas) to manipulate data in excel sheet in order to perform reconciliation.

2. Perform reconciliation using their product.

3. Prepare documentation on current and proposed changes and functionalities.

Mar 2020 - Sept 2020

Intern ▶ Xelpmoc Design and Technology Limited

1. Hired as an intern for the position of software developer.
2. Mostly worked on backend technologies for web applications.
3. Designed and maintained database.
4. Worked on a mobile application which is a non educational app where I've created REST APIs and created and maintained documentation for the same.

PROJECTS

Jul 2020 - Sept 2020

Acadezy

Acadezy is a non educational web application portal. In this project I have worked as a back-end developer and my day-today

tasks include :

- Designing and maintaining the database.
- Creating REST APIs.
- Testing the full working of the application.
- Maintaining and creating documentation for the same.

Sept 2020 - Jan 2021

ARO

Perform reconciliation using their product ARO for multiple clients and have created plugins using python in order to manipulate data to support reconciliation.

Jan 2020 - Feb 2020

Personal Blog Post

Personal Blog Post is a personal blogging web portal where I write my personal life experiences. This is a dynamic web application where I performed:

- Database designing in MySql.
- Designed the whole application module using PHP, Javascript, HTML, CSS and Bootstrap.

Mar 2020 - Apr 2020

Personal Portfolio

This is a personal portfolio created in order to showcase my skills and works. It is a single page application which I have created using Javascript and Jquery.

Apr 2020 - May 2020

Automated Project Allocation Portal

An Automated Project Allocation Portal is a web application which is made for the purpose of allocating projects to students for academic purpose. This is a dynamic web application where I performed:

- Database designing in MySql.
- Designed the whole application module using PHP, Javascript, HTML, CSS and Bootstrap.

May 2020 - Jun 2020

Color Game Project

Color Game Project is a single page application which is created using Javascript, HTML, CSS and Bootstrap.
